

SAFETY DATA SHEET

Quercetin

According to the REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577, as amended.

1.1. Product identifier

Quercetin		
86015335		
117-39-5		
204-187-1		
1.2. Relevant identified uses of the substance or mixture and uses advised against		
For research purposes only.		
Not suitable for human consumption or veterinary purposes.		
1.3. Details of the supplier of the safety data sheet		
Molekula Ltd.		

Supplier	Molekula Ltd.
	Lingfield Way,
	Darlington,
	DL1 4XX,
	United Kingdom
	+44 (0) 3302000333
	info@molekula.com

1.4. Emergency telephone number

+44 (0) 7769276927

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification	(SI 2019 No. 720)	
Classification	(012010100.720)	

Physical hazards	Not Classified
Health hazards	Acute Tox. 3 - H301
Environmental hazards	Not Classified
2.2. Label elements	
EC number	204-187-1
Hazard pictograms	
Signal word	Danger
Hazard statements	H301 Toxic if swallowed.

Precautionary statements	P264 Wash contaminated skin thoroughly after handling. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor.
	P330 Rinse mouth.
	P405 Store locked up.
	P501 Dispose of contents/ container in accordance with national regulations.

2.3. Other hazards

This substance is not classified as PBT or vPvB according to current UK criteria.

SECTION 3: Composition/int	formation on ingredients
3.1. Substances	
Product name	Quercetin
CAS number	117-39-5
EC number	204-187-1
Chemical formula	C15H10O7
SECTION 4: First aid measu	res
4.1. Description of first aid m	neasures
General information	Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.
Ingestion	Get medical attention immediately. Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Never give anything by mouth to an unconscious person. Place unconscious person on their side in the recovery position and ensure breathing can take place. Keep affected person under observation.
Skin contact	Rinse with water.
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.
Protection of first aiders	It may be dangerous for first aid personnel to carry out mouth-to-mouth resuscitation.
4.2. Most important sympton	ns and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	A single exposure may cause the following adverse effects: Temporary irritation.
Ingestion	May cause stomach pain or vomiting. May cause severe internal injury.
Skin contact	Prolonged contact may cause dryness of the skin.
Eye contact	May be slightly irritating to eyes.
4.3. Indication of any immediate medical attention and special treatment needed	
Notes for the doctor	Treat symptomatically. Keep affected person under observation.
SECTION 5: Firefighting me	asures

5.1. Extinguishing media

Suitable extinguishing media	Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire- extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fr	om the substance or mixture
Specific hazards	This product is toxic.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Very toxic or corrosive gases or vapours. Carbon dioxide (CO2). Carbon monoxide (CO).
5.3. Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing will provide a basic level of protection for chemical incidents.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material.
6.2. Environmental precaution	<u>s</u>
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Provide adequate ventilation. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.
6.4. Reference to other section	ns
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. This product is toxic. Immediate first aid is imperative. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers

handle broken packages without protective equipment. Do not reuse empty containers.

7.2. Conditions for safe storage, including any incompatibilities Storage precautions Store away from incompatible materials (see Section 10). Store locked up. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. Storage class Toxic storage. 7.3. Specific end use(s) The identified uses for this product are detailed in Section 1.2. SECTION 8: Exposure controls//Personal protection Image: Control of the identified uses for this product are detailed in Section 1.2. Section end use(s) The identified uses for this product are detailed in Section 1.2. Section end use(s) The identified uses for this product are detailed in Section 1.2. Section end use(s) The identified uses for this product are detailed in Section 1.2. Section end use(s) The identified uses for this product are detailed in Section 1.2. Section end use(s) Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients. Evelface protection Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. Hand protection No specific hand protection recommended. Other skin and body protection should be used. Wear appropriate clothing to prevent repeated or prolonged skin contact. Protection	Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse.
Storage precautions Store away from incompatible materials (see Section 10). Store locked up. Keep only in the original container. Keep containers tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. Storage class Toxic storage. 7.3. Specific end use(s) The identified uses for this product are detailed in Section 1.2. 9.1. Information on basic physical and chemical properties

Appearance	Powder.
Colour	Yellow.
Odour	Not known.
Odour threshold	No information available.
рН	No information available.

Melting point	316.5°C/601.7°F
Initial boiling point and range	642.4°C/1188.32°F @ 760 mm Hg
Flash point	248.1°C/478.58°F
Evaporation rate	No information available.
Flammability (solid, gas)	No information available.
Upper/lower flammability or explosive limits	No information available.
Vapour pressure	9.03E-16 mm Hg @ 25°C/77°F
Vapour density	No information available.
Relative density	1.799 g/cm3
Solubility(ies)	Soluble in the following materials: DMSO Methanol.
Partition coefficient	log Pow: 1.99 (25°C/77°F)
Auto-ignition temperature	No information available.
Decomposition Temperature	No information available.
9.2. Other information	
Molecular weight	302.24

11.1. Information on toxicological effects

Acute toxicity - oral	
Summary	Toxic if swallowed.
Acute toxicity oral (LD₅₀ mg/kg)	161.0
Species	Rat
ATE oral (mg/kg)	161.0
<u>Acute toxicity - dermal</u> Summary	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Summary	Based on available data the classification criteria are not met.
Skin corrosion/irritation Summary	Based on available data the classification criteria are not met.
Serious eye damage/irritation Summary	Based on available data the classification criteria are not met.
Respiratory sensitisation Summary	Based on available data the classification criteria are not met.
Skin sensitisation Summary	Based on available data the classification criteria are not met.
Germ cell mutagenicity Summary	Based on available data the classification criteria are not met.
<u>Carcinogenicity</u> Summary	Based on available data the classification criteria are not met.
IARC carcinogenicity	None of the ingredients are listed or exempt.
Reproductive toxicity Summary	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
Summary	Based on available data the classification criteria are not met.
Specific target organ toxicity -	
Summary	Based on available data the classification criteria are not met.
Aspiration hazard Summary	Not relevant. Solid.
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	A single exposure may cause the following adverse effects: Temporary irritation.
Ingestion	May cause stomach pain or vomiting. May cause severe internal injury.
Skin contact	Prolonged contact may cause dryness of the skin.
Eye contact	May be slightly irritating to eyes.
Route of exposure	Ingestion Inhalation Skin and/or eye contact

Target organs	No specific target organs known.		
SECTION 12: Ecological information			
Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.		
<u>12.1. Toxicity</u> Acute aquatic toxicity Summary	Based on available data the classification criteria are not met.		
Chronic aquatic toxicity Summary	Based on available data the classification criteria are not met.		
12.2. Persistence and degradability			
Persistence and degradability	The degradability of the product is not known.		
12.3. Bioaccumulative potential			
Bioaccumulative potential	No data available on bioaccumulation.		
Partition coefficient	log Pow: 1.99 (25°C/77°F)		
12.4. Mobility in soil			
Mobility	No data available.		
12.5. Results of PBT and vPv	B assessment		
12.6. Other adverse effects			
Other adverse effects	None known.

Empty containers or liners may retain some product residues and hence be potentially hazardous. Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible.		
13.1. Waste treatment method General information Disposal methods SECTION 14: Transport inform General 14.1. UN number	Image: Second State The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous. Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible. mation For limited quantity packaging/limited load information, consult the relevant modal documentation using the data shown in this section.

14.2. UN proper shipping name

Proper shipping name (ADR/RID)	TOXIC SOLID, ORGANIC, N.O.S. (Quercetin)	
Proper shipping name (IMDG)	TOXIC SOLID, ORGANIC, N.O.S. (Quercetin)	
Proper shipping name (ICAO)	TOXIC SOLID, ORGANIC, N.O.S. (Quercetin)	
Proper shipping name (ADN)	TOXIC SOLID, ORGANIC, N.O.S. (Quercetin)	
14.3. Transport hazard class(es)		
ADR/RID class	6.1	
ADR/RID classification code	T2	
ADR/RID label	6.1	
IMDG class	6.1	

INDG class	0.1
ICAO class/division	6.1
ADN class	6.1

Transport labels

14.4. Packing group

ADR/RID packing group	III
IMDG packing group	III
ICAO packing group	
ADN packing group	III

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

EmS	F-A, S-A
ADR transport category	2
Emergency Action Code	2X
Hazard Identification Number (ADR/RID)	60
Tunnel restriction code	(E)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

National regulationsHealth and Safety at Work etc. Act 1974 (as amended).The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment
Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].EH40/2005 Workplace exposure limits.

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

Inventories

EU - EINECS/ELINCS

None of the ingredients are listed or exempt.

SECTION 16: Other information		
Abbreviations and acronyms used in the safety data sheet	 ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways. RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail. IATA: International Air Transport Association. ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods. CAS: Chemical Abstracts Service. ATE: Acute Toxicity Estimate. LC50: Lethal Concentration to 50 % of a test population. LD50: Lethal Dose to 50% of a test population (Median Lethal Dose). ECso: 50% of maximal Effective Concentration. PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative. 	
Classification abbreviations and acronyms	Acute Tox. = Acute toxicity	
Classification procedures according to SI 2019 No. 720	Acute Tox. 3 - H301: : Expert judgement.	
Training advice	Only trained personnel should use this material.	
Revision date	24/05/2022	
Revision	1	
SDS number	967	
Hazard statements in full	H301 Toxic if swallowed.
