

SAFETY DATA SHEET

Kanamycin sulfate

According to the REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577, as amended.

| 1.1. Product identifier | |
|------------------------------|---|
| Product name | Kanamycin sulfate |
| Internal identification | 15202460 |
| CAS number | 70560-51-9 |
| EC number | 684-844-0 |
| 1.2. Relevant identified us | es of the substance or mixture and uses advised against |
| Identified uses | Industrial use |
| Uses advised against | For research and development purposes. Not suitable for human consumption or veterinary purposes. |
| 1.3. Details of the supplier | of the safety data sheet |
| Supplier | Molekula Ltd. |
| | Lingfield Way, |
| | Darlington, |

Lingfield Way, Darlington, DL1 4XX, United Kingdom +44 (0) 3302000333 info@molekula.com

1.4. Emergency telephone number

SECTION 2: Hazards identification

| 2.1. Classification of the substance or mixture | | |
|---|-----------------|--|
| Classification (SI 2019 No. 720) | | |
| Physical hazards | Not Classified | |
| Health hazards | Repr. 1B - H360 | |
| Environmental hazards | Not Classified | |
| 2.2. Label elements | | |
| EC number | 684-844-0 | |
| Hazard pictograms | | |

Signal word

Danger

Hazard statements

H360 May damage fertility or the unborn child.

| Precautionary statements | P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P308+P313 IF exposed or concerned: Get medical advice/ attention. |
|--------------------------|---|
| | P405 Store locked up. P501 Dispose of contents/ container in accordance with national regulations. |

2.3. Other hazards

This substance is not classified as PBT or vPvB according to current UK criteria.

| SECTION 3: Composition/information on ingredients | |
|--|--|
| 3.1. Substances | |
| Product name | Kanamycin sulfate |
| CAS number | 70560-51-9 |
| EC number | 684-844-0 |
| Chemical formula | C18H38N4O15S |
| SECTION 4: First aid measure | es |
| 4.1. Description of first aid me | pasures |
| General information | Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel. |
| Inhalation | Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist. |
| Ingestion | Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel. |
| Skin contact | Rinse with water. |
| Eye contact | Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues. |
| Protection of first aiders | First aid personnel should wear appropriate protective equipment during any rescue. |
| 4.2. Most important symptoms and effects, both acute and delayed | |
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | A single exposure may cause the following adverse effects: Temporary irritation. |
| Ingestion | May cause discomfort if swallowed. |
| Skin contact | Prolonged contact may cause dryness of the skin. |
| Eye contact | May be slightly irritating to eyes. |
| 4.3. Indication of any immedia | te medical attention and special treatment needed |
| Notes for the doctor | Treat symptomatically. |
| SECTION 5 ⁻ Firefighting measure | |

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fireextinguishing media suitable for the surrounding fire.

| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. |
|---|--|
| 5.2. Special hazards arising fr | om the substance or mixture |
| Specific hazards | None known. |
| Hazardous combustion products | Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |
| 5.3. Advice for firefighters | |
| Protective actions during firefighting | Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing will provide a basic level of protection for chemical incidents. |
| SECTION 6: Accidental releas | e measures |
| 6.1. Personal precautions, pro | tective equipment and emergency procedures |
| Personal precautions | Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. |
| 6.2. Environmental precaution | <u>s</u> |
| Environmental precautions | Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment. |
| 6.3. Methods and material for | containment and cleaning up |
| Methods for cleaning up | Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13. |
| 6.4. Reference to other section | ns |
| Reference to other sections | For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13. |
| SECTION 7: Handling and sto | rage |
| 7.1. Precautions for safe hand | ling |
| Usage precautions | Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. May damage fertility or the unborn child. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers. |
| Advice on general occupational hygiene | Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. |

7.2. Conditions for safe storage, including any incompatibilities

| Storage precautions | Store away from incompatible materials (see Section 10). Store locked up. Keep only in the original container. Keep containers upright. Protect containers from damage. Store at temperatures between 2°C and 8°C. Air sensitive. Store under inert gas. |
|----------------------------------|--|
| Storage class | Chemical storage. |
| 7.3. Specific end use(s) | |
| Specific end use(s) | The identified uses for this product are detailed in Section 1.2. |
| SECTION 8: Exposure controls | s/Personal protection |
| 8.1. Control parameters | |
| 8.2. Exposure controls | |
| Protective equipment | |
| | |
| Appropriate engineering controls | Provide adequate general and local exhaust ventilation. Ensure the ventilation system is regularly maintained and tested. Good general ventilation should be adequate to control worker exposure to airborne contaminants. Observe any occupational exposure limits for the product or ingredients. |
| Eye/face protection | Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. |
| Hand protection | Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, wear gloves that are proven to be impervious to the chemical and resist degradation. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. |
| Other skin and body protection | Wear appropriate clothing to prevent any possibility of skin contact. |
| Hygiene measures | Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product. |
| Respiratory protection | Ensure all respiratory protective equipment is suitable for its intended use and is 'UKCA'- marked. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges suitable for intended use should be used. Full face mask respirators with replaceable filter cartridges suitable for intended use should be used. Half mask and quarter mask respirators with replaceable filter cartridges suitable for intended use should be used. |
| Environmental exposure controls | Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| SECTION 9: Physical and cher | mical properties |
| 9.1. Information on basic physi | ical and chemical properties |

| Appearance | Powder. |
|------------|---------|
| Colour | White. |

| Odour | Not known. |
|--|--|
| Odour threshold | No information available. |
| рН | No information available. |
| Melting point | No information available. |
| Initial boiling point and range | No information available. |
| Flash point | No information available. |
| Evaporation rate | No information available. |
| Flammability (solid, gas) | No information available. |
| Upper/lower flammability or explosive limits | No information available. |
| Vapour pressure | No information available. |
| Vapour density | No information available. |
| Relative density | No information available. |
| Solubility(ies) | No information available. |
| Partition coefficient | No information available. |
| Auto-ignition temperature | No information available. |
| Decomposition Temperature | No information available. |
| 9.2. Other information | |
| SECTION 10: Stability and rea | activity |
| 10.1. Reactivity | |
| Reactivity | See the other subsections of this section for further details. |
| 10.0 Obersieel stability | |
| 10.2. Chemical stability | |
| <u>10.2. Chemical stability</u> Stability | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. |
| <u>_</u> | prescribed storage conditions. |
| Stability | prescribed storage conditions. |
| Stability 10.3. Possibility of hazardous Possibility of hazardous | prescribed storage conditions. |
| Stability 10.3. Possibility of hazardous Possibility of hazardous reactions | prescribed storage conditions. |
| Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous reactions <u>10.4. Conditions to avoid</u> | prescribed storage conditions. <u>reactions</u> No potentially hazardous reactions known. |
| Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous reactions <u>10.4. Conditions to avoid</u> Conditions to avoid | prescribed storage conditions. <u>reactions</u> No potentially hazardous reactions known. |
| Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u> | prescribed storage conditions. reactions No potentially hazardous reactions known. There are no known conditions that are likely to result in a hazardous situation. No specific material or group of materials is likely to react with the product to produce a hazardous situation. |
| Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid | prescribed storage conditions. reactions No potentially hazardous reactions known. There are no known conditions that are likely to result in a hazardous situation. No specific material or group of materials is likely to react with the product to produce a hazardous situation. |
| Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition | prescribed storage conditions. reactions No potentially hazardous reactions known. There are no known conditions that are likely to result in a hazardous situation. No specific material or group of materials is likely to react with the product to produce a hazardous situation. on products Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |
| Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition Hazardous decomposition products | prescribed storage conditions. reactions No potentially hazardous reactions known. There are no known conditions that are likely to result in a hazardous situation. No specific material or group of materials is likely to react with the product to produce a hazardous situation. on products Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. |

Acute toxicity - oral

| Summary | Based on available data the classification criteria are not met. |
|---|---|
| Acute toxicity - dermal | |
| Summary | Based on available data the classification criteria are not met. |
| Acute toxicity - inhalation Summary | Based on available data the classification criteria are not met. |
| Skin corrosion/irritation | |
| Summary | Based on available data the classification criteria are not met. |
| Serious eye damage/irritation Summary | Based on available data the classification criteria are not met. |
| Respiratory sensitisation | |
| Summary | Based on available data the classification criteria are not met. |
| Skin sensitisation | Based on available data the classification criteria are not met. |
| | based on available data the classification chiena are not met. |
| Germ cell mutagenicity Summary | Based on available data the classification criteria are not met. |
| Carcinogenicity | |
| Summary | Based on available data the classification criteria are not met. |
| IARC carcinogenicity | None of the ingredients are listed or exempt. |
| Reproductive toxicity | |
| Summary | May damage fertility or the unborn child. |
| Specific target organ toxicity - | |
| Summary | Based on available data the classification criteria are not met. |
| Specific target organ toxicity - Summary | repeated exposure Based on available data the classification criteria are not met. |
| Aspiration hazard | |
| Summary | Not relevant. Solid. |
| | |
| General information | May damage fertility. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | A single exposure may cause the following adverse effects: Temporary irritation. |
| Ingestion | May cause discomfort if swallowed. |
| Skin contact | Prolonged contact may cause dryness of the skin. |
| Eye contact | May be slightly irritating to eyes. |
| Route of exposure | Ingestion Inhalation Skin and/or eye contact |
| Target organs | No specific target organs known. |
| SECTION 12: Ecological infor | mation |

Ecotoxicity

Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

| <u>Acute aquatic toxicity</u> Summary | Based on available data the classification criteria are not met. |
|--|--|
| Chronic aquatic toxicity | |
| Summary | Based on available data the classification criteria are not met. |
| 12.2. Persistence and degrada | ability |
| Persistence and degradability | The degradability of the product is not known. |
| 12.3. Bioaccumulative potentia | al |
| Bioaccumulative potential | No data available on bioaccumulation. |
| Partition coefficient | No information available. |
| 12.4. Mobility in soil | |
| Mobility | No data available. |
| 12.5. Results of PBT and vPv | B assessment |
| 12.6. Other adverse effects | |
| Other adverse effects | None known. |
| SECTION 13: Disposal consid | erations |
| 13.1. Waste treatment method | |
| General information | The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous. |
| Disposal methods | Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible. |
| SECTION 14: Transport inform | nation |
| General | The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID). |
| 14.1. UN number | |
| Not applicable. | |
| 14.2. UN proper shipping nam | |
| Not applicable. | |
| 14.3. Transport hazard class(e | es) |
| No transport warning sign requ | uired. |
| 14.4. Packing group | |
| Not applicable. | |
| 14.5. Environmental hazards | |
| | |

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| National regulations | Health and Safety at Work etc. Act 1974 (as amended). |
|----------------------|---|
| | The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment |
| | Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. |
| | EH40/2005 Workplace exposure limits. |

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

Inventories

EU - EINECS/ELINCS

None of the ingredients are listed or exempt.

SECTION 16: Other information

| Abbreviations and acronyms used in the safety data sheet | ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways. RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail. IATA: International Air Transport Association. ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods. CAS: Chemical Abstracts Service. ATE: Acute Toxicity Estimate. LC50: Lethal Concentration to 50 % of a test population. LD50: Lethal Dose to 50% of a test population (Median Lethal Dose). EC₅₀: 50% of maximal Effective Concentration. PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative. |
|---|--|
| Classification abbreviations and acronyms | Repr. = Reproductive toxicity |
| Classification procedures according to SI 2019 No. 720 | Repr. 1B - H360: : Expert judgement. |
| Training advice | Only trained personnel should use this material. |
| Revision date | 30/03/2022 |
| Revision | 2 |
| Supersedes date | 30/03/2022 |
