SECTION 4

First-aid measures

Inhalation	Remove person to fresh air and keep comfortable for breathing. n case of persistent throat irritation or coughing: seek medical attention. Remove person to fresh air and keep comfortable for breathing. If not breathing, give artificial respiration.
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Contact a physician if discomfort continues.
Eye contact	Remove contact lenses if present. Rinse eyes with water. Continue to rinse for at least 15 minutes and seek medical attention.
Ingestion	IF SWALLOWED: give water to drink (two glasses at most). Seek medical advice immediately. In exceptional cases only, if medical care is not available within one hour, induce vomiting (only if the persons are fully conscious and awake). Administer activated charcoal (20 - 40g in a 10% slurry) and consult a doctor as quickly as possible. Do not attempt to neutralise.
Symptoms / effects & medical attention	he severity of the symptoms described will vary dependant of the concentration and the length of exposure. Causes burns by all exposure routes. See section 11 for more detailed information on health effects and symptoms.

SECTION 5

Fire-fighting measures

Suitable extinguishing media	Use measures appropriate to local circumstances
Unsuitable extinguishing media	None known
Special hazards	Specific hazards: Corrosive. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Hydrogen Chloride gas Not combustible. Ambient fire may liberate hazardous vapours
Advice for firefighters	Evacuate area. Avoid breathing gas, fume, vapours or spray. Prevent skin contact by maintaining a safe distance and by wearing suitable protective equipment/ clothing. Cool containers exposed to heat with water spray and remove container, if no risk is involved.

SECTION 6
