

Specification

Technical Data Sheet

Product Name	2-Methoxyphenylacetic acid
---------------------	----------------------------

Product No	10662778
-------------------	----------

CAS Number	93-25-4
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	166.17
-------------------------	--------

Specification

Appearance	White to off white powder or crystals
-------------------	---------------------------------------

Melting Point	122 - 125°C
----------------------	-------------

Assay	≥ 98.0%
--------------	---------

Identification (IR)	Conforms to Reference
----------------------------	-----------------------
