

Specification

Technical Data Sheet

Product Name	5-Methylquinoxaline
---------------------	---------------------

Product No	10923708
-------------------	----------

CAS Number	13708-12-8
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	144.17
-------------------------	--------

Specification

Appearance	Colourless to Yellow liquid, paste or solid
-------------------	---

Identification	Conforms to reference
-----------------------	-----------------------

Melting Point	20°C - 21°C
----------------------	-------------

Assay	≥98.0%
--------------	--------
