

Specification

Technical Data Sheet

Product Name	Sodium acetate trihydrate
---------------------	---------------------------

Product No	12000052
-------------------	----------

CAS Number	6131-90-4
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	136.08
-------------------------	--------

Specification

Appearance	White crystals
-------------------	----------------

pH	8.0 - 9.0 (5% aq.)
-----------	--------------------

Assay	≥ 99.0%
--------------	---------

Solubility	Freely soluble in water
-------------------	-------------------------

Identification (IR)	Conforms to Reference
----------------------------	-----------------------
