

Specification

Technical Data Sheet

Product Name	7-Hydroxycoumarin (Umbelliferone)
---------------------	-----------------------------------

Product No	12457908
-------------------	----------

CAS Number	93-35-6
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	162.14
-------------------------	--------

Specification

Appearance	Pale grey to pale beige powder
-------------------	--------------------------------

Storage Temperature	+20°C
----------------------------	-------

Melting Point	187.0 - 191.0°C
----------------------	-----------------

Moisture	≤0.5%
-----------------	-------

Purity	≥98.0% (HPLC)
---------------	---------------

Residue on Ignition	≤0.5%
----------------------------	-------
