

Specification

Technical Data Sheet

Product Name	Phenyl salicylate
---------------------	-------------------

Product No	13371137
-------------------	----------

CAS Number	118-55-8
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	214.22
-------------------------	--------

Specification

Appearance	White crystalline solid
-------------------	-------------------------

Heavy metals	≤20 ppm
---------------------	---------

Identification	Conforms to reference
-----------------------	-----------------------

Melting Point	41°C - 43°C
----------------------	-------------

Assay	≥99.0%
--------------	--------

Chloride (Cl)	≤100 ppm
----------------------	----------

Residue on Ignition	≤0.1%
----------------------------	-------

Specification

Sulfate (SO₄)

≤100 ppm
