

Specification

Technical Data Sheet

Product Name	Nickel Aluminum, Raney r type non-activated
---------------------	---

Product No	13853276
-------------------	----------

CAS Number	12635-29-9
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	85.67
-------------------------	-------

Specification

Appearance	Grey to grey-black powder or crystal
-------------------	--------------------------------------

Al	47.0% to 52.0%
-----------	----------------

Ni	48.0% to 53.0 %
-----------	-----------------

Particle Size	100-160mesh
----------------------	-------------
