

Specification

Technical Data Sheet

Product Name	S-(-)-alpha-Phenylethylamine
---------------------	------------------------------

Product No	14057640
-------------------	----------

CAS Number	2627-86-3
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	121.18
-------------------------	--------

Specification

Appearance	Colourless to light yellow liquid
-------------------	-----------------------------------

Assay	>99%
--------------	------

Exaggeration	<0.5%
---------------------	-------

Optical Purity	>98%
-----------------------	------

Optical Rotation	-38 to -40
-------------------------	------------
