

Specification

Technical Data Sheet

Product Name	Bathocuproinedisulfonic acid disodium salt
---------------------	--

Product No	14424729
-------------------	----------

CAS Number	52698-84-7
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	564.54
-------------------------	--------

Specification

Appearance	White or beige powder
-------------------	-----------------------

Assay	≥98.0% (NT, dried substance)
--------------	------------------------------

Notes	Suitable for determination of copper
--------------	--------------------------------------

Water Content (KF)	≤4.0%
---------------------------	-------
