

Specification

Technical Data Sheet

Product Name	Bis(trimethylsilyl)trifluoroacetamide
---------------------	---------------------------------------

Product No	14757349
-------------------	----------

CAS Number	25561-30-2
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	257.40
-------------------------	--------

Specification

Appearance	Colourless transparent liquid
-------------------	-------------------------------

Boiling Point	64 - 66 Deg C
----------------------	---------------

Identification	Conforms to reference
-----------------------	-----------------------

Assay	≥98%
--------------	------
