

Specification

Technical Data Sheet

Product Name	N-(Hydroxymethyl)phthalimide
---------------------	------------------------------

Product No	16823649
-------------------	----------

CAS Number	118-29-6
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	177.16
-------------------------	--------

Specification

Appearance	White to off-white powder
-------------------	---------------------------

Assay/Purity	≥ 98.5%
---------------------	---------

Melting Point	140.0 - 145.0°C
----------------------	-----------------

Moisture	≤ 0.5% (KF)
-----------------	-------------

Identification (IR)	Conforms to Reference
----------------------------	-----------------------
