

Specification

Technical Data Sheet

Product Name	16-Dehydropregnenolone acetate
---------------------	--------------------------------

Product No	18978760
-------------------	----------

CAS Number	979-02-2
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	356.50
-------------------------	--------

Specification

Appearance	Fine white to yellowish crystalline powder
-------------------	--

Loss on Drying	<0.5%
-----------------------	-------

Clarity	Almost clear
----------------	--------------

Specific optical rotation	-38 to -39.5
----------------------------------	--------------

Assay HPLC	>98.5%
-------------------	--------

Melting Range	171 - 178 Deg C
----------------------	-----------------
