

Specification

Technical Data Sheet

Product Name	Aluminium oxide neutral
---------------------	-------------------------

Product No	19762260
-------------------	----------

CAS Number	1344-28-1
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	101.96
-------------------------	--------

Specification

Appearance	White to off-white powder
-------------------	---------------------------

pH	6.5 - 7.5
-----------	-----------

Bulk density	~920 kg/m ³
---------------------	------------------------

Fe₂O₃	≤0.03%
------------------------------------	--------

Na₂O	≤0.4%
------------------------	-------

Particle Size	5% <40um
----------------------	----------

SiO₂	≤0.03%
------------------------	--------
