

Specification

Technical Data Sheet

Product Name	Diocetyl sebacate (Bis(2-ethylhexyl)sebacate)
---------------------	---

Product No	21234976
-------------------	----------

CAS Number	122-62-3
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	426.67
-------------------------	--------

Specification

Pour Point	- to -70 Deg C
-------------------	----------------

Saponification value (mgKOH/g)	258 - 270
---------------------------------------	-----------

Acid value mgKOH/g	0 - 0.2
---------------------------	---------

Colour Index	0 - 50
---------------------	--------

Refraction index	1.4490 - 1.4520
-------------------------	-----------------
