

Specification

Technical Data Sheet

Product Name	1-Naphthol
---------------------	------------

Product No	21716457
-------------------	----------

CAS Number	90-15-3
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	144.17
-------------------------	--------

Specification

Appearance	Grayish-white flake
-------------------	---------------------

Identification	Conforms to reference
-----------------------	-----------------------

2-Naphthol	$\leq 0.2\%$
-------------------	--------------

High boiling matter	$\leq 0.1\%$
----------------------------	--------------

Low boiling matter	$\leq 0.1\%$
---------------------------	--------------

Solidifying point	$\geq 94.5\text{ }^{\circ}\text{C}$
--------------------------	-------------------------------------

Assay GC	$\geq 99.5\%$
-----------------	---------------
