

Specification

Technical Data Sheet

| | |
|---------------------|------------------------------------------|
| Product Name | 3-Amino-1,2,4-triazole-5-carboxylic acid |
|---------------------|------------------------------------------|

| | |
|-------------------|----------|
| Product No | 22677851 |
|-------------------|----------|

| | |
|-------------------|-----------|
| CAS Number | 3641-13-2 |
|-------------------|-----------|

| | |
|----------------------------|---------|
| Storage Temperature | Ambient |
|----------------------------|---------|

| | |
|-------------------------|--------|
| Molecular Weight | 128.09 |
|-------------------------|--------|

Specification

| | |
|-------------------|---------------------------|
| Appearance | White to off-white powder |
|-------------------|---------------------------|

| | |
|------------|--------|
| Ash | ≤ 0.5% |
|------------|--------|

| | |
|-----------------------|--------|
| Loss on Drying | ≤ 1.0% |
|-----------------------|--------|

| | |
|----------------------|--------------|
| Melting Point | 176 - 186 °C |
|----------------------|--------------|

| | |
|-------------------|--------|
| Insolubles | ≤ 0.3% |
|-------------------|--------|

| | |
|-------------------|---------|
| Assay HPLC | ≥ 98.0% |
|-------------------|---------|
