

Specification

Technical Data Sheet

Product Name	p-Toluenesulfonic acid monohydrate
---------------------	------------------------------------

Product No	22682449
-------------------	----------

CAS Number	6192-52-5
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	190.22
-------------------------	--------

Specification

Appearance	White/ light pink powder
-------------------	--------------------------

Sulphuric Acid	$\leq 0.3\%$
-----------------------	--------------

Water Content (KF)	$\leq 13\%$
---------------------------	-------------

Identification (IR)	Conforms to Reference
----------------------------	-----------------------

Toluene Sulphonic acid	$\geq 88.0\%$
-------------------------------	---------------

Total acid	$\geq 97.2\%$
-------------------	---------------
