

Specification

Technical Data Sheet

Product Name	Salicylaldehyde azine
---------------------	-----------------------

Product No	23237498
-------------------	----------

CAS Number	959-36-4
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	240.26
-------------------------	--------

Specification

Appearance	Yellow crystalline powder
-------------------	---------------------------

Identification	Conforms to reference
-----------------------	-----------------------

Melting Point	218 - 222 Deg C
----------------------	-----------------

Assay HPLC	>99%
-------------------	------
