

Specification

Technical Data Sheet

Product Name	1,4-Naphthoquinone
---------------------	--------------------

Product No	25038144
-------------------	----------

CAS Number	130-15-4
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	158.16
-------------------------	--------

Specification

Appearance	Yellow-to-yellow green powder
-------------------	-------------------------------

Melting Point	124-126°C
----------------------	-----------

Purity	99.0% or higher
---------------	-----------------

Weight loss by drying	5.5% or lower
------------------------------	---------------

Solubility	Soluble in Benzene and Chloroform
-------------------	-----------------------------------
