

# Specification

## Technical Data Sheet

<b>Product Name</b>	Neocuproine hemihydrate
---------------------	-------------------------

<b>Product No</b>	27122433
-------------------	----------

<b>CAS Number</b>	484-11-7
-------------------	----------

<b>Storage Temperature</b>	Ambient
----------------------------	---------

<b>Molecular Weight</b>	217.27
-------------------------	--------

### Specification

<b>Appearance</b>	Pale-brown to off white powder
-------------------	--------------------------------

<b>Solubility</b>	Clear, max 150APHA in 10% Methylalcohol
-------------------	---

<b>Sulphated Ash</b>	0.1% max
----------------------	----------

<b>Assay (NT)</b>	≥98%
-------------------	------

<b>Melting Range</b>	159 - 164 Deg C
----------------------	-----------------

<b>Suitable for Determination of Copper</b>	Passes Test
---	-------------
