

Specification

Technical Data Sheet

Product Name	Tetramethylammonium hydrogen sulfate
---------------------	--------------------------------------

Product No	27719041
-------------------	----------

CAS Number	80526-82-5
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	171.22
-------------------------	--------

Specification

Appearance	White to off white crystalline powder
-------------------	---------------------------------------

Identification	Conforms to reference
-----------------------	-----------------------

Elemental Analysis	Carbon
---------------------------	--------

Moisture	≤ 5.0%
-----------------	--------

Purity	≥ 99.0% (titration)
---------------	---------------------

Suitability	Suitable for HPLC
--------------------	-------------------
