

Specification

Technical Data Sheet

Product Name	Zirconyl chloride octahydrate
---------------------	-------------------------------

Product No	28679449
-------------------	----------

CAS Number	13520-92-8
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	322.25
-------------------------	--------

Specification

Appearance	White Crystalline
-------------------	-------------------

Aluminium Oxide	0.0005% max.
------------------------	--------------

Silicon dioxide	0.002% max.
------------------------	-------------

Titanium dioxide	0.001% max.
-------------------------	-------------

Zirconium dioxide	>36%
--------------------------	------

Iron (III) oxide	0.001% max.
-------------------------	-------------

Sodium Oxide	0.005% max.
---------------------	-------------
