

# Specification

## Technical Data Sheet

|                     |                  |
|---------------------|------------------|
| <b>Product Name</b> | 2-Naphthaldehyde |
|---------------------|------------------|

|                   |          |
|-------------------|----------|
| <b>Product No</b> | 40933039 |
|-------------------|----------|

|                   |         |
|-------------------|---------|
| <b>CAS Number</b> | 66-99-9 |
|-------------------|---------|

|                            |               |
|----------------------------|---------------|
| <b>Storage Temperature</b> | -15 to -20 °C |
|----------------------------|---------------|

|                         |        |
|-------------------------|--------|
| <b>Molecular Weight</b> | 156.18 |
|-------------------------|--------|

### Specification

|                   |                    |
|-------------------|--------------------|
| <b>Appearance</b> | Light yellow solid |
|-------------------|--------------------|

|                       |                       |
|-----------------------|-----------------------|
| <b>Identification</b> | Conforms to reference |
|-----------------------|-----------------------|
