

Specification

Technical Data Sheet

Product Name	trans-4-Hydroxy-L-proline
---------------------	---------------------------

Product No	45298012
-------------------	----------

CAS Number	51-35-4
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	131.13
-------------------------	--------

Specification

Appearance	White to off white crystalline powder
-------------------	---------------------------------------

IR	Conforms to reference
-----------	-----------------------

Melting Point	272-277°C
----------------------	-----------

pH	5.5 - 6.0
-----------	-----------

Identification (RAMAN)	Conforms to reference
-------------------------------	-----------------------

Water Content (KF)	<0.1%
---------------------------	-------
