

Specification

Technical Data Sheet

Product Name	Brilliant Cresyl Blue (C.I. 51010)
---------------------	------------------------------------

Product No	45545810
-------------------	----------

CAS Number	81029-05-2
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	385.96
-------------------------	--------

Specification

Appearance	Green crystalline powder
-------------------	--------------------------

Loss on Drying	≤5%
-----------------------	-----

Dye Content	≥ 40%
--------------------	-------

Absorption - lambda max	≤628 nm
--------------------------------	---------

Solubility 0.1% in 50% EtOH	Clear blue solution
------------------------------------	---------------------
