

Specification

Technical Data Sheet

Product Name	3-Nitrophenol
---------------------	---------------

Product No	50430656
-------------------	----------

CAS Number	554-84-7
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	139.11
-------------------------	--------

Specification

Appearance	Brown powder
-------------------	--------------

Melting Point	94 - 98°C
----------------------	-----------

Assay (GC)	≥ 99.5%
-------------------	---------

Water Content	≤ 1.0%
----------------------	--------

Identification (IR)	Conforms to structure
----------------------------	-----------------------
