

Specification

Technical Data Sheet

Product Name	Phloroglucinol anhydrous
---------------------	--------------------------

Product No	54327566
-------------------	----------

CAS Number	108-73-6
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	126.11
-------------------------	--------

Specification

Appearance	White to off-white powder
-------------------	---------------------------

Loss on Drying	≤ 0.5% (dried)
-----------------------	----------------

Melting Point	216 - 220°C (dried)
----------------------	---------------------

pH	4 - 6
-----------	-------

Assay	≥ 99.0% (dried)
--------------	-----------------

Residue on Ignition	≤ 0.2% (dried)
----------------------------	----------------

Solubility in alcohol	Completely Soluble
------------------------------	--------------------

Specification

Identification (IR)

Conforms to structure
