

Specification

Technical Data Sheet

Product Name	Hexamethylphosphorous triamide
---------------------	--------------------------------

Product No	63320794
-------------------	----------

CAS Number	1608-26-0
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	163.20
-------------------------	--------

Specification

Appearance	Colourless liquid
-------------------	-------------------

Boiling Point	162 - 165 Deg C
----------------------	-----------------

Solvent	<1.0%
----------------	-------

Assay HPLC	>98%
-------------------	------
