

Specification

Technical Data Sheet

Product Name	Xylidine Ponceau 2R (C.I. 16150)
---------------------	----------------------------------

Product No	84385615
-------------------	----------

CAS Number	3761-53-3
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	480.4225
-------------------------	----------

Specification

Appearance	Brownish red powder
-------------------	---------------------

Absorption maxima in water	500nm - 510nm
-----------------------------------	---------------

Dye Content	≥60.0%
--------------------	--------

Solubility in water	Soluble in water
----------------------------	------------------
