

Specification

Technical Data Sheet

Product Name	Pigment Red 49:2
---------------------	------------------

Product No	89967036
-------------------	----------

CAS Number	1103-39-5
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	796.89
-------------------------	--------

Specification

Appearance	Red powder
-------------------	------------

Molecular Weight	794.00
-------------------------	--------

Storage Temperature	+20°C
----------------------------	-------

Water	0.2%
--------------	------

Contactance	≤300us/cm
--------------------	-----------

Oil Absorption	45%~50%
-----------------------	---------
