

Specification

Technical Data Sheet

Product Name	4,4-bis(Dimethylamino)thiobenzophenone
---------------------	--

Product No	89968072
-------------------	----------

CAS Number	1226-46-6
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	284.42
-------------------------	--------

Specification

Appearance	Deep red solid
-------------------	----------------

Melting Point	202 - 206 °C
----------------------	--------------

Purity (HPLC)	97% - 100%
----------------------	------------

Chloroform dissolve test	Conforms
---------------------------------	----------

On the gold sensitivity	Conforms
--------------------------------	----------

Purity (Titration with HClO₄)	97.5 - 102.5
---	--------------
