

Specification

Technical Data Sheet

| | |
|---------------------|-----------------------------------|
| Product Name | 8-Ethoxyquinoline-5-sulfonic acid |
|---------------------|-----------------------------------|

| | |
|-------------------|----------|
| Product No | 89968240 |
|-------------------|----------|

| | |
|-------------------|------------|
| CAS Number | 15301-40-3 |
|-------------------|------------|

| | |
|----------------------------|---------|
| Storage Temperature | Ambient |
|----------------------------|---------|

| | |
|-------------------------|-------|
| Molecular Weight | 253.3 |
|-------------------------|-------|

Specification

| | |
|-------------------|---|
| Appearance | White to Cream to Yellow crystalline powder |
|-------------------|---|

| | |
|-----------------------|-----------------------|
| Identification | Conforms to reference |
|-----------------------|-----------------------|

| | |
|----------------------|-------|
| Melting Point | 298°C |
|----------------------|-------|

| | |
|--|-------------------------------|
| Assay (aqueous acid-base titration) | ≥ 98.5 to $\leq 101.5\%$ |
|--|-------------------------------|

| | |
|-------------------------------------|------------|
| Water content (Karl-Fischer) | 3.43-9.64% |
|-------------------------------------|------------|
