

Specification

Technical Data Sheet

Product Name	Trisodium phosphate hexahydrate
---------------------	---------------------------------

Product No	89982729
-------------------	----------

CAS Number	15819-50-8
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	272.03
-------------------------	--------

Specification

Appearance	White to Off-white crystalline powder
-------------------	---------------------------------------

Appearance of Solution	Clear or hazy colourless solution
-------------------------------	-----------------------------------

Assay	≥ 50.0% (Back titration)
--------------	--------------------------

Identification (RAMAN)	Conforms to Reference
-------------------------------	-----------------------

Solubility	≥ 50g/l aq.
-------------------	-------------
