

Specification

Technical Data Sheet

Product Name	Diisopropylammonium tetrazolide
---------------------	---------------------------------

Product No	90004741
-------------------	----------

CAS Number	93183-36-9
-------------------	------------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	171.24
-------------------------	--------

Specification

Appearance	White to off-white powder
-------------------	---------------------------

Melting Point	Reported
----------------------	----------

Purity	≥99.0%
---------------	--------
