

Specification

Technical Data Sheet

Product Name	Arsenazo I trisodium
---------------------	----------------------

Product No	90005357
-------------------	----------

CAS Number	520-10-5
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	614.28
-------------------------	--------

Specification

Appearance	Brown to red powder
-------------------	---------------------

Identification	Conforms to reference
-----------------------	-----------------------

Residue on ignition	22% - 26% (as sulfate)
----------------------------	------------------------

Assay	≥80%
--------------	------
