

Specification

Technical Data Sheet

Product Name	Toluidine Blue Powder C.I. 50240
---------------------	----------------------------------

Product No	90022085
-------------------	----------

CAS Number	92-31-9
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	960.80
-------------------------	--------

Specification

Appearance	Blue solid
-------------------	------------

Loss on Drying	≤5%
-----------------------	-----

Shade	Similar to Standard
--------------	---------------------

Specific Absorbance (E 1%/1cm)	≥1200
---------------------------------------	-------

Wavelength of max absorption	628-633nm
-------------------------------------	-----------
