

Specification

Technical Data Sheet

Product Name	Potassium Sulphate pure crystals
---------------------	----------------------------------

Product No	90023784
-------------------	----------

CAS Number	7778-80-5
-------------------	-----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	174.26
-------------------------	--------

Specification

Appearance	White to Off-white powder
-------------------	---------------------------

Assay (NaOH)	≥ 99.0%
---------------------	---------

Identification (RAMAN)	Conforms to Reference
-------------------------------	-----------------------

Solubility in water	clear colourless solution, no precipitate (10% , 20°C)
----------------------------	--

Loss on Drying @ (130°C)	≤1.0%
---------------------------------	-------
