

Specification

Technical Data Sheet

Product Name	2-Phenylbutyric acid
---------------------	----------------------

Product No	90027169
-------------------	----------

CAS Number	90-27-7
-------------------	---------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	164.20
-------------------------	--------

Specification

Appearance	White to Beige powder
-------------------	-----------------------

Melting Point	38 - 44°C
----------------------	-----------

Purity (Titration by NaOH)	≥ 90%
-----------------------------------	-------

Water Content (KF)	≤ 5.0%
---------------------------	--------

Identification (IR)	Conforms to Reference
----------------------------	-----------------------
