

Specification

Technical Data Sheet

Product Name	4'-Methoxypropiofenone
---------------------	------------------------

Product No	90028893
-------------------	----------

CAS Number	121-97-1
-------------------	----------

Storage Temperature	Ambient
----------------------------	---------

Molecular Weight	164.20
-------------------------	--------

Specification

Appearance	Low melting solid - will appear as a liquid over 27 °C
-------------------	--

Density	0.937 g/mL - once liquid
----------------	--------------------------

Flash Point	61°C
--------------------	------

Melting Point	27 - 29°C
----------------------	-----------
