

# Specification

## Technical Data Sheet

|                     |                     |
|---------------------|---------------------|
| <b>Product Name</b> | N,N-Dimethylaniline |
|---------------------|---------------------|

|                   |          |
|-------------------|----------|
| <b>Product No</b> | 90031300 |
|-------------------|----------|

|                   |          |
|-------------------|----------|
| <b>CAS Number</b> | 121-69-7 |
|-------------------|----------|

|                            |         |
|----------------------------|---------|
| <b>Storage Temperature</b> | Ambient |
|----------------------------|---------|

|                         |        |
|-------------------------|--------|
| <b>Molecular Weight</b> | 121.18 |
|-------------------------|--------|

### Specification

|                   |                                   |
|-------------------|-----------------------------------|
| <b>Appearance</b> | Clear colourless to yellow liquid |
|-------------------|-----------------------------------|

|                         |                           |
|-------------------------|---------------------------|
| <b>Refractive Index</b> | 1.5555 - 1.5595 (at 20°C) |
|-------------------------|---------------------------|

|                   |         |
|-------------------|---------|
| <b>Assay (GC)</b> | ≥ 98.0% |
|-------------------|---------|

|                               |                       |
|-------------------------------|-----------------------|
| <b>Identification (RAMAN)</b> | Conforms to Reference |
|-------------------------------|-----------------------|
